Opus

Available in a Matt White or range of high gloss finishes, the Opus doors with their integrated J-Pull handle are the ultimate contemporary style statement. The 22mm door thickness, compared to a standard 18mm door, provides a reassuring feel of craftsmanship and attention to detail. Each component is manufactured with a painted and lacquered surface, resulting in an exceptional finish that is extremely smooth and hard-wearing.

Alto

A modern interpretation of classic Shaker styling, the Alto range takes all the qualities of the classic design and reinvents it for a more contemporary feel. The 22mm door thickness, compared to a standard 18mm door, provides a reassuring feel of craftsmanship and attention to detail. Each component is manufactured with a painted and lacquered surface, resulting in an exceptional matt finish that is not only highly tactile but also extremely smooth and hard-wearing.

In the manic pace of modern day living, a sense of calmness has become something we increasingly associate with exclusivity. Aspects PerfectSense Matt is the epitome of this. Available in a number of muted tones it allows the simplicity of form to speak for itself and to create an understated, high value feel.

A special coating method with UV paint technology clearly enhances the surface of PerfectSense. The velvet matt surface is the complete opposite to more familiar high gloss surfaces and has been developed to meet the growing demand for high-quality, soft-look finishes that appear in homes. Available in a range of neutral colours, the special No-Fingerprint finish prevents smudges and smears appearing on even the most tactile of areas, such as handleless doors.

Aspects PerfectSense Gloss

Aspects PerfectSense Gloss is an ultra gloss surface that makes a bold statement of luxury. A special coating method with UV paint technology clearly enhances the surface of PerfectSense. With the ability to reflect light, it can help make spaces feel brighter and bigger.

A smooth and flawless finish which results in a new level of reflection that allows you to create the kind of high-end look that was previously only achievable by using glass or acrylic. A high-end look must not fade, so we've added a unique UV coating that is both hard-wearing and protective, to ensure PerfectSense Gloss shines longer. Previously, a high class, high gloss finish meant high costs and even higher maintenance. With PerfectSense Gloss that stops. It is now time to think beyond what was once impossible.

Aspects Feelwood Elegance

With contemporary yet classic designs, especially painted timber doors, becoming increasingly popular, we have created Feelwood Elegance, a deep, natural texture designed to replicate this bespoke and timeless look.

Feelwood Elegance is a way to achieve something special. An innovation, finished with an exquisite grain effect. It is modern, classic, on-trend, a true representation of a favourite look. A key to unlocking potential.

With the feel of true craftsmanship and quality Feelwood Elegance incorporates a meticulously-considered grain pattern that has been specifically designed for use with a palette of neutral solid colours - producing a finish reminiscent of painted timber.

Kronodesign

The Kronodesign collection of stunning décors includes Square Edge and Slim Line designs for the latest look. Brand new, on-trend finishes include everything from industrial concretes, textured and weathered woodgrains, to super cool stone and marble finishes, plus matching Upstands for a seamless look. These are worktops that work hard in the kitchen and even harder for you.

Synergii

Introducing the 'designer' work surfaces range, Synergii brings the very latest designs with on-trend, innovative surface textures to create work surfaces that look and feel more realistic than ever.

Every Synergii work surface is technologically advanced and super-hygienic. They are treated with Sanitized® antibacterial hygiene function that destroys more than 99% of bacteria in just 24 hours.

Aeon

Aeon is a technology that produces enhanced performance laminates making them dramatically more durable. Wood décors look richer while stone effects look intensely more authentic, even glossy surfaces and darker colours stay looking better for longer. Laminate with Aeon outperforms traditional laminates on wear resistance, as well as scuff & scratch resistance by up to 5 times.

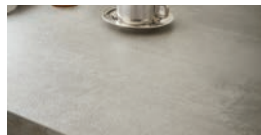

Earthstone

Imagine a surface that is as durable as it is beautiful. A surface that allows you to create the look and design you have always wanted. Earthstone is a 100% acrylic based surface product that is solid, nonporous and does not require sealing. Naturally resistant to heat, mould, mildew and most stains, as well as being renewable and repairable; even scratches are easily repaired.

Solid Wood

Oak is the most popular wood species and personifies everything that people look for when they choose a solid wood worktop. It is extremely strong and hard wearing which is ideal for worktops. The rich colour will mature and darken over time and add character to any kitchen. Choosing an Oak worktop guarantees a truly unique product that will give pleasure for many years to come.
